| S. Comments:P. Hammersley explained at scale that he could offer no tangible explanation for the horse's poor performance. Trainer K. Schweida was advised that KANUI would be required to compete satisfactorily in a barrier trial before racing again. A post-race veterinary examination revealed no significant findings, and a routine swab sample was taken. |                     |        |                         |                          |                  |

| S. Comments:Rider questioned re performance - stated gelding slow to begin and then slow to muster speed in early stages. Noted displayed a similar tendency in early stages of most recent start at Doomben. Added gelding then travelled comfortably during middle stages but disappointed in failure to finish race off as expected after obtaining clear running to outside of small field on straightening. Trainer may trial gelding prior to next start otherwise felt distance and conditions not suitable. Vetted - no abnormalities - routine swab sample. |                      |        |     |                                     |
