accordance with its established racing pattern. He said that whilst racing at the tail of the field he was caught 3 wide when the mare pulled hard and refused to settle. He added that he was then obliged to race in that position throughout and when placed under pressure after straightening for home the mare failed to respond to his riding and was disappointing. S. Comments: Questioned re the performance, rider stated that his mount began well and established the lead quickly, added that his mount raced keenly in the early and middle stages and was under pressure from the 700m to maintain its position, also stated his mount failed to sprint in the straight and was disappointing. Trainer reported in the days subsequent that the mare had pulled up well and that he would add a tongue tie to its gear as he suspects it may have got its tongue behind the bit during the event. A post race vet exam did not reveal any abnormality.

S. Comments: Questioned re tactics adopted early stages, in particular after beginning well he did not hold a forward position but allowed his mount to settle towards the rear of the field, rider stated that he was instructed to ensure his mount began well and travel so as to finish off the race strongly, added that after his mount began well he rode it along and it commenced to travel comfortably, stated that runners to his outside continued to ride forward and he elected to allow his mount to remain travelling comfortably. Trainer confirmed the instructions.
