S. Comments:Protested against winner, dismissed. Jumped awkwardly. Tightened for room shortly after the start and had to be checked. R. Wiggins reported that it had been his intention to position the horse in a forward position, however after suffering interference at the start he was obliged to settle at the rear of the field. Bumped near the 100m while laying in.

He indicated that the horse began well and if not for the instructions he would have liked to position more forward, however he elected to take hold and settle at the tail of the field. He indicated that the horse finished the race off strongly. He further added that had he drawn an inside alley, the horse would have taken up a more forward position.

Lloyd indicated as the horse was having its first start and had not shown early speed in its barrier trial, he was instructed to settle his mount where comfortable and after travelling well responded to his riding in the home straight and was doing its best work over the concluding stages. A post race veterinary examination revealed signs of lameness in the near foreleg. A veterinary clearance will be required prior to next race start.

S. Comments:Rider questioned re disappointing performance. He said the gelding raced very one-paced today when racing second up from a spell. He added that he could offer no tangible explanation for the horse's poor performance and suggested to connections that the gelding may be better suited in races over a greater distance than today's event. Trainer could offer no explanation for the performance, however advised that it would be his intention to step the horse up in distance and undertook to report to stewards anything that comes to light which may have had an effect on the performance.

Co-trainer P. Hulbert was questioned regarding the horse's improved performance. He stated that at its previous start the filly did not run on after travelling well and he was of the opinion that it may not have appreciated the track conditions on that occasion. He added that the filly is better suited on rain-affected tracks.
