He added that approaching the 600 metres his mount raced keenly and improved onto the heels of the eventual winner and shifted out, resulting in him then having to sustain a 4-wide run without cover from the 600 metres. Apprentice concurred with stewards that he would have been better served by attempting to remain racing on the back of the winner, rather than place too much effort on his mount, and improve from that point.

S. Comments:When questioned regarding his riding Jockey said that after being slow to begin then crowded he elected to ride his mount at the tail of the field with cover, where it travelled only fairly throughout. He added that rounding the home turn he placed his mount under pressure in an attempt to follow the eventual winner, however at this point his mount did not respond, and for this reason he desisted from applying pressure in the early part of the straight. Said that when again placed under pressure approaching the 100 metres his mount then responded and ran to the line strongly.

S. Comments:When questioned regarding the horse's performance, apprentice stated that the gelding failed to show any early speed and in her opinion raced flat. Trainer stated that he felt the drop back in distance today had an effect on the horse's performance and in view of this it is now the intention to step the horse back up in distance. A post-race veterinary examination revealed no significant findings.
