S. Comments:Blundered on jumping. Near 1400m steadied. Questioned re tactics, lack of vigour between 600m and 400m. Rider - mount travelled only faily on heavy track and in horse's best interest to keep it travelling on the bridle to give it every chance of finishing off the race. Placed under pressure rounding home turn at which point it finished off the race better than expected. Conceded that had he known horse would let down well in heavy conditions should have improved earlier than he did. Noting horse had failed in heavy conditions previously stewards advised rider not to leave riding open to query.

S. Comments:After being held up in traffic, underwent a veterinary examination and cleared to take its place in the field. Slow to begin. Stewards asked apprentice C. Dell to comment on the performance. He indicated that the horse was slow to begin and he was forced to ride his mount further back in the field than he would have liked and was also obliged to pressure the horse from the 700m and despite this the horse responded to his riding over the final 300m and was doing its best work over the concluding stages. He indicated the horse would appreciate the step up to 1600m.

S. Comments:Shifted out approaching the 100m and bumped another runner. Rider questioned re tactics. He said he was told to lead if possible and after trying to take a sit when caught wide, he could not obtain a position with cover so he allowed the horse to stride forward. He said being its first run with blinkers back on, it raced a little keenly so he elected not to restrain it but allow it to stride along at a comfortable pace in the lead. He thought being caught wide early and having to do additional work may have had an effect on the gelding's finishing effort. Stewards noted his explanation.

When questioned regarding the performance jockey stated that his mount travelled fairly in the early stages however was under pressure to maintain its position from the 600m. He added that his mount failed to sprint in the straight and in his opinion raced like a tired horse. When questioned, trainer stated that on return to scale the mare had its tongue over the bit. She added that she would experiment with gear on the mare and give it a freshen up prior to its next race start. A post race veterinary examination of the mare did not reveal any abnormality.
