S. Comments:Slow to begin and tightened between runners on jumping away, having to be steadied. Trainer S. O'Dea's stable representative indicated that in hindsight the horse may not have appreciated racing in a cross-over nose band last start and again in today's event. He said that at its last start the horse did not show its customary early speed and was slowly away again in today's event. He indicated that in light of today's performance, the horse would likely be sent for a spell. Stewards advised him that the horse will be required to trial prior to its next start. Nonetheless, Jockey Allen was disappointed with the mare's failure to finish off the race over the final 400m and in his opinion was disappointing. Trainer B Lockwood indicated that he would step the mare up in distance and attempt to have it ridden with cover.

S. Comments:Jockey R Plumb reported the gelding failed to travel comfortably at any stage and was disappointing in its performance. Trainer A Willick stated that blood tests along with an endoscopic examination performed earlier this week were clear of irregularities and as such was unable to provide any tangible explanation for today's disappointing performance. She undertook to have further veterinary examinations and blood tests carried out in the days subsequent to todays event, the results of which will be reported to Stewards. Post-race vet exam – no findings.

He stated that when steading his mount in the early stages the gelding commenced to overrace and he was unable to obtain a position closer to the fence with cover. He added that near the 800m, after overracing, he elected to try to improve to the lead, however the horse then did not have sufficient pace to improve around the horses to his inside. McGillivray reported that at no stage did the horse travel comfortably and was under pressure from the 600m onwards. Trainer S. He advised that the horse will undergo an endoscopic examination in ensuing days, the finding of which he will report to stewards. A post-race veterinary examination revealed no significant findings.
