Trainer questioned re improved performance - explained that first start had a tendency to overrace and was slightly inconvenienced rounding home turn and weakened late over the concluding stages. Added following that race of the opinion would improve with that run however, elected to trial prior to racing and in that trial changed the bit and added a tongue tie in an attempt to have the gelding settle better in its races. Further added subsequently trialed well in that gear and was ridden in a similar manner, which including added fitness contributed to improved performance.

Fradd advised that the mare had travelled comfortably in a midfield position throughout, however when placed under pressure from the 600m it failed to quicken as he had anticipated and ran on only fairly in the home straight. He added that, in his opinion, the below market expectation performance could be attributed to the step up in weight and distance today, and that the mare did not feel entirely comfortable racing on the rain affected track. S. Comments:When questioned regarding the seemingly improved performance, Trainer R Lyford explained that the gelding which was having its first start for the stable had worked reasonably, including a jump-out where it had performed competitively. Mr Lyford further added that he expected the gelding to be looking for distances further than that of today's event and was surprised by the win. He further added that with the fast tempo up front in a small field, this was a contributing factor to the gelding finishing the race off in the manner in which it did.
