Murphy was asked to comment on the horse's performance. He indicated that after travelling favourably in the early and middle stages the horse suffered interference on the home turn and failed to respond to his riding thereafter. A post-race veterinary examination revealed a poor post-race recovery.

He added that the horse has performed well previously racing on similar surfaces. He further added that the gelding was able to obtain the lead without being challenged today and he believed this was also beneficial to the horse's chances. He said he had supported the horse as he believed that having a 3kg claiming apprentice was also a significant factor.
