S. Comments: When questioned regarding the performance rider explained that his mount commenced to weaken noticeably from the home turn and as he felt there may have been something amiss with the mare he eased it down over the concluding stages. A post race veterinary examination did not reveal any abnormalities. The gelding has since performed satisfactorily in a trial.

When questioned regarding the performance of the gelding, which performed below market expectations, Jockey explained that gelding raced greenly throughout, had to be continually steadied off the heels of runners in front, and when placed under pressure in the straight failed to respond and was disappointing. A post-race veterinary examination revealed that the gelding was lame in the off foreleg. Trainer since reported that gelding underwent surgery to remove bone chips from its off fore knee.

S. Comments: When questioned regading the poor performance of the gelding rider explained that the horse performs best when able to dictate terms in front. He said that after a runner improved quickly to his inside, his mount was then inclined to lay out, rounding the home turn ran wide, and weakened noticeably over the concluding stages. A post-race veterinary examination did not reveal any abnormalities. Trainer was told that the horse must perform satisfactory in a trial prior to being permitted to race again.

S. Comments: When asked to explain the horse's seemingly improved performance, trainer M. Mair indicated that the horse's first start this preparation was over an unsuitable distance, being 1000m, and he was disappointed with the horse's most recent start, however the rider had indicated that the horse had shown a tendency to be somewhat field shy. He indicated that today's performance was somewhat surprising as he had not expected such a forward showing.
